ELEGANCE STRING QUARTET

A Guide on Electric Violin from the #MannMusicRoom

THE ELECTRIC VIOLIN

An electric violin is a string instrument which is played with a bow, like a normal violin. The strings are usually tuned to the notes G, D, A, and E, but it could have its pitches changed as it is electric. It is held between the left collar bone (near the shoulder) and the chin.

Different notes are made by fingering with the left hand while bowing with the right. It has no frets or other markers. Players have to learn the exact place to put the fingers of the left hand and memorize them.

ABOUT THE ARTIST

Elegance String Quartet (ESQ) has distinguished itself in the music industry with a signature style that harnesses the beauty of the traditional string quartet and then completely revolutionizes it.

From New York's Radio City Music Hall to Moscow's Tchaikovsky Concert Hall, the ESQ musicians have had the privilege to appear alongside some of the biggest names in the music industry: Idina Menzel, Michael Bublé, Trans-Siberian Orchestra, Branford Marsalis, Kygo, The Roots, and The Who among them.

The singular sound of ESQ is built on years in the business, a passion for innovation, and a love of making music together.
